Friendly beast.

Hola! What's that? Toro is an all-in-one statement. It's ideal for ergonomic sitting, or just to lean on. With a handy writing table and coat-hanger, it's a workplace, a chair for conversations and a striking object in itself. A friendly beast of lacquered wood with close-fitting upholstery. And it's so inviting that you just can't help sitting on it.

Wherever you put it, Toro provokes reactions. Put two Toros next to each other and you have a creative corner.
