

# sedus

**se:spot**

*Work and  
lifestyle chair*

# Working where it feels best.

## Designed for your lifestyle and well-being good at work.

Today, office furnishings are increasingly being tailored to the needs of employees. And not just because this increases employer appeal. Where employees experience a sense of well-being, they are often more productive. Besides functional aspects, the atmosphere plays an important role.

Cosy lounge or breakout areas are becoming more and more popular in companies. Also classic zones such as meeting and project spaces no longer have to appear so rational as in the past. The stylish design of the se:spot combines appealing seating with a comfortable, ergonomic seating experience.

# Working and lifestyle

**Versatile.**  
se:spot is suitable for the office.  
For temporary work or as a stylish  
visitor chair.

**Cosy.**  
When used in the home office.  
se:spot harmoniously fits  
into homely interiors.

# New ideas emerge where they are most welcome.

## Working together, feeling good together.

Today, employees meet spontaneously in order to exchange ideas and to work together. A dedicated room is not always available or indeed necessary for this and, as such, people simply get together where the opportunity arises.

Thanks to mobile end devices, alongside the conference room, lounges and other informal areas are often used to get together. The only condition for this is that the respective surrounding should foster collaboration. For example, with uncomplicated seating such as se:spot which not only feels and looks good, but also provides the freedom to work together.

### Stylish.

In a classic arrangement around a rectangular meeting table, se:spot creates a stylish atmosphere.

### Team building.

Arranged in a circle, se:spot is ideal for larger teamwork tables.

# Communication and collaboration

**Classic.**  
When lined up for lectures or presentations, se:spot has a great appearance.

**Invigorating.**  
se:spot promotes communication in workshops and training sessions when arranged in a circle.

# Sometimes you need a break from formality.

## Breakout areas which encourage productivity.

Breaks play a decisive role in terms of work productivity. Not just because they offer a chance to rest and relax. Breaks provide an opportunity for informal communication; this is not only of vital importance for the flow of information in the company, but is also a source of new ideas.

Break areas do not only have to be used for relaxing. They can serve as a retreat for concentrated working. With se:spot, these areas can be designed to be truly inviting in order to encourage multiple use and increase space efficiency.

## Relaxation and well-being

**Inviting.**  
Given its homely design, se:spot turns bistros and communal meeting areas into places where people love to meet.

**Uniting.**  
se:spot can be used together with smaller tables in intermediate zones and at meeting points.

# Both elegant and ergonomic.

## Shaped for the body: a naturally flowing design.

The lines of se:spot are based on the human body. This gives the design its light and natural look while the seat shell and backrest provide pleasant and comfortable support.

**Inspired** by the human body.

## Unique design: with harmonious proportions.

The curved seat design gives se:spot a wonderfully independent look. With its flowing form which is evocative of the human anatomy, se:spot is both natural-looking and inviting.

Introducing the ideal sitting form.

**Developed** for the human body.

## Unique ergonomics: the anatomical seat shell.

se:spot gives the body the freedom it needs and also provides pleasant support. The lumbar curvature in the backrest guarantees a healthy posture when sitting for long periods of time.

The shaped seat pan together with the slightly sloped front seat edges also allow the posture spontaneous changes of posture to the side.

# Stylish in every way.

## Well-being tailored to you.

Depending on the setting and usage, se:spot can be stylishly customised with various seat shell colours and leg versions. The discrete colour versions and high-quality materials underscore the harmonious lines and turn se:spot into an eye-catcher from every angle.

### Cosy.

The plastic seat shells are available in white, silk grey and black.

### Elegant.

Slim metal legs in shiny chrome or with a black or white powder-coated finish – se:spot tube.

### Homely.

Slim, converging solid wood legs in natural oak, natural beech or black beech – se:spot wood.

## Versions and variety

### Comfortable.

The upholstered felt graphite or grey cushions provide even more sitting comfort.

# Embrace the beauty of showing your true colours.

## Simply appealing: the changeable upholstery.

With the changeable upholstery covers, the look of the se:spot chairs can be changed in no time at all and without the need for tools. se:spot can also be subsequently adapted to new colour schemes and uses. The upholstery also improves sitting comfort and gives the se:spot a cosy appearance.

### Changeable upholstery.

Thanks to the changeable upholstery, se:spot can be adapted to suit changing needs at any time.

## Back upholstery

### ATLANTIC SCREEN

Two different shades are available for the rear fabric upholstery which can be easily combined with the front upholstery colours.

Light grey

Anthracite

## Front upholstery

### SEDUS COLOUR COLLECTION 2019+

The colours of the front fabric upholstery can be freely selected from the extensive Sedus colour collections, e.g., Atlantic, Step and Fame.

## Look and feel

### Colour play.

The large selection of fabrics and colours offers huge space for creativity.

# Perfectly designed down to the last detail.

## Good design represents an endless source of discovery.

At first glance, se:spot impresses with its reduced and truly natural design style. At second glance, it reveals its intelligent details, ranging from the shaped seat shell to the slim wooden or metal legs. se:spot knows how to please, especially once you have taken a seat.

### **Aesthetic.**

The soft, flowing lines of the plastic seat blend harmoniously into any setting given the three seat colours.

### **Ergonomic.**

The seat shell includes a lumbar curvature and seat pan which guarantees a healthy posture even when sitting for extended periods.

### **Removable.**

The premium seat cushion made of felt increases sitting comfort and also preserves the elegant lines of the plastic shell.

### **Appealing.**

The legs available in three different premium kinds of genuine wood, give se:spot wood a particularly cosy feel.

### **Elegant.**

Alternatively, the legs can also be produced in round tube metal in three different colours of se:spot tube.

### **Convertible.**

The fabric changeable upholstery further enhances the sitting comfort and allows the look to be customised with attractive fabrics and colours.

# Even when stacked high, this chair remains down-to-earth.

se:spot not only cuts a great figure when used on its own.

se:spot stack is a great choice for seating in seminar and project rooms. If the area needs to be used for a different purpose, se:spot can be stacked in a space-saving manner to free up the area for new ideas.

## Stackable.

In the version se:spot stack, up to ten chairs can be stacked in a space-saving manner.

## Stackable and tidy

### Tidy.

The handy transport or stacking trolley makes even tidying up a pleasure.

# Outstanding for people and the environment.

In its over 145-year-long history, sustainability has always played a central role at Sedus, even if this term didn't even exist back then. The responsible use of resources and respect and appreciation of our employees has been an integral part of Sedus right from the start. Corporate responsibility also means to develop and produce high-quality products which result in tangible benefits. Products which help people and bring joy to their lives. Some of our chairs and desks have been in use by our customers for decades, which is perhaps the greatest kind of sustainability.

se:spot also reflects these values. Even during the development phase, the focus was clearly on customer benefits and the environmental footprint. And this is truly outstanding. For example, thanks to the selected materials which are particularly easy to sort and recycle. As well as the company's own powder coating which is far more environmentally friendly than conventional lacquer coating. The result is not just maximum quality, but also a great feeling.
